hysi

Version 1.8
Effective from 16 October 2026

Processors and Sub-processors

The suppliers that process personal data for Hysi

About this overview

Hysi Premer (Norwegian organisation number 937 439 725) is the controller for Hysi. The suppliers below process personal data on our behalf, as processors, and only to provide the service. Each of them is bound by a data processing agreement or equivalent terms. What we process and why is set out in the privacy policy.

We update this overview when we take on a new supplier or change what a supplier does. Send questions to post@hysi.app.

The app and hysi.app

Supplier	What they do for Hysi	Data	Where	Transfers outside the EEA
Deploi AS, Norway (org. no. 922 105 006)	The server with database, API and background jobs, and the server provider's backup of the server	Everything the server holds: accounts, households, inventory, history, AI records and technical logs	Norway	None
Cloudflare, Inc., USA	Storage of photos, receipts and encrypted backups (R2), and DNS for **hysi.app**	Photos and receipts. Backups are encrypted to a key Cloudflare does not hold. DNS does not see the content of the traffic	EU (storage with EU jurisdiction)	The agreement allows transfer to the US under the DPF, with SCC as fallback
Resend (Plus Five Five, Inc.), USA	E-mail from the app: confirmations, password reset, invitations, links to a full copy and notices of new messages in Loppis	The recipient's e-mail address and the content of the e-mail (links, the household's name in an invitation, the thing's title in a notice, never the message itself). Kept for 30 days	USA	SCC and DPF
Sentry (Functional Software, Inc.), USA	Crash reports from the app	Error type, place in the code, app version, operating system, phone model, language and region, and a random installation id. No names, content or e-mail. Kept for 30 days	EU (Frankfurt)	The agreement allows processing in the US under SCC and DPF

Supplier	What they do for Hysi	Data	Where	Transfers outside the EEA
OpenAI (OpenAI Ireland Ltd.), Ireland	Photo analysis, room analysis, reading of receipts and bundled listing suggestions, only when the person has consented	The photo or receipt analysed, or one or two photos of a whole room downscaled to at most 1,600 pixels (location and other metadata are removed from photos; a PDF is sent as uploaded), and categories and text the phone read on the thing. For a bundled listing suggestion: the things' names, brands, models, quantities and tags, the chosen category and condition, and the purchase year and price per piece where recorded, as text without photos. Not used for training; may be kept for up to 30 days to detect abuse	May be processed globally	SCC
Apple Inc., USA	Push notifications to iPhones (Apple Push Notification service)	The phone's push token and the text of the notification: the title of the thing a message is about, the name of a flea market that will soon be deleted, the household's name and the first name of a new member, the number of unread conversations and an id the app opens the right page with. Never the message itself or e-mail addresses. A waiting notification is held for three days at most	Apple's own services, also the USA	Under Apple's terms for developers (Apple Developer Program License Agreement)
Microsoft (Microsoft Ireland Operations Ltd.), Ireland	The post@hysi.app mailbox	Enquiries you send us, with name and e-mail address	EU/EEA	The agreement allows transfer under SCC and DPF

The website www.hysi.app

Supplier	What they do for Hysi	Data	Where	Transfers outside the EEA
Vercel Inc., USA	Hosting the website	IP address and browser information in server logs	Global (edge network)	SCC and DPF
Kigent	The chat on the website	What you write in the chat	See **www.kigent.no/underleverandorer**	May occur at Kigent's sub-processors

Independent controllers

Some services process data about you on their own responsibility, not on our behalf:

- **Apple and Google**, when you download the app from the App Store or Google Play, and when you sign in with Apple or Google.
- **Places where you share the link to your flea market**, for example a marketplace or a social media group.

Abbreviations

EEA: the European Economic Area. **SCC:** the European Commission's standard contractual clauses for transfers of personal data. **DPF:** the EU–US Data Privacy Framework.
